

Beatriz Martins Gomes Silva

Data Science | Machine Learning | Data Analytics

Biomedical Engineering student at the Federal University of Uberlândia (UFU), with international academic experience at Polytech Marseille and hands-on Data Science experience at Expleo Group on Airbus Helicopters projects in France.

TECHNICAL SKILLS

- **Programming & Data:** Python (Pandas, NumPy, Matplotlib, scikit-learn), SQL, R (tidyverse, caret, rpart), MATLAB/Simulink
- **Machine Learning:** Classification, Regression, Clustering, Decision Trees, Model Evaluation
- **Data Analytics:** Data Cleaning, Exploratory Data Analysis (EDA), Correlation Analysis, Descriptive Statistics, Data Visualization
- **Data Visualization & Low-Code:** Looker Studio, AppSheet
- **Other Technologies:** Java, C, HTML, CSS, JavaScript

PROFESSIONAL EXPERIENCE

DATA SCIENCE INTERN

Expleo Group (Airbus Helicopters) - Vitrolles, France

06/2026 - 07/2026

- Developed interactive Looker Studio dashboards for the analysis of financial datasets and quality-related indicators.
- Designed and developed the "App Dépannage" application using AppSheet, structuring operational data collection and improving troubleshooting workflows.
- Translated operational requirements into structured data solutions, dashboards and digital workflows for internal users.

UNDERGRADUATE RESEARCHER - CONTROL SYSTEMS

LASEC - Uberlândia, Brazil

03/2025 - 08/2025

- Developed a data acquisition pipeline for an experimental aeropendulum using ESP32 and MPU9250 sensors, collecting PWM-angle time-series data through serial communication at 10 Hz.
- Performed dynamic system modeling and identification using experimental data.
- Validated the mathematical model by comparing simulated and measured responses, achieving an 81.39% model fit.

UNDERGRADUATE RESEARCHER - DATA SCIENCE

GIM - Uberlândia, Brazil

03/2023 - 09/2024

- Developed a classification model using the Breast Cancer Wisconsin dataset and Decision Trees.
- Evaluated and optimized the predictive model, achieving 94.7% classification accuracy.
- Identified three key predictive features and developed an interpretable classification rule based on the most relevant parameters.

PROJECTS

QUALITY DATA ANALYTICS DASHBOARD | LOOKER STUDIO

2026

Expleo Group – Airbus Helicopters Project

- Developed an interactive dashboard to monitor calibration equipment through operational KPIs, geographic visualization and dynamic filters.
- Validated and structured numerical, categorical and geographic variables from operational datasets for analytical use.

TORRE DE ÍRIS | HTML, CSS, JAVASCRIPT

2025

Live project - <https://torredeirisv2.web.app/>

- Designed and developed an educational game inspired by the Towers of Hanoi and Tower of London problems.
- Implemented algorithmic disk movement logic and a scoring system based on step optimization.

EDUCATION

Polytech Marseille (amU)

2025 - 2026

Biomedical Engineering – International Exchange Program (Ranked 1st)

Federal University of Uberlândia (UFU)

2022 - Present

B.Sc. in Biomedical Engineering

Expected Graduation: 08/2027

CERTIFICATIONS

R FOR DATA SCIENCE: DATA ANALYSIS AND STATISTICAL MODELING – 20 HOURS

2023

BIOMEDICAL SIGNAL PROCESSING AND ANALYSIS WITH R – 30 HOURS

2024

LANGUAGES

- Portuguese: Native
- French: Fluent (C2)
- English: Advanced (C1)
